## PART ONE

#### 1. INTRODUCTION

# 1.1 APPLICATION AND SCOPE OF THE CODE

The South African Schools Act, 1996, empowers the school authorities to discipline learners, but it is beyond the law to delegate this authority to learners. Learners are stakeholders with other members of the school community but are not in charge of the School. Enrolment at the School automatically constitutes acceptance of compliance with the CODE OF CONDUCT by the learner and other criteria which may be enforced from time to time during the operation of the School.

The Code of Conduct ("Code") adopted by the SGB of the School applies to learners when the learner is waiting for GDE transportation at a designated stop, being transported to and from School on School transportation, at School, or participating in a school-sponsored activity no matter where the activity is occurring. In addition, the learner may be subject to the Code for off-campus activities, regardless of the time or place where the conduct occurs, if the learner's conduct is found to have a detrimental effect on the health, safety, and welfare of other learners as an enrolled learner of the School and where such conduct affects the good name, honour and reputation of the School.

In terms of Section 6 the National Guidelines for the Consideration of Governing Bodies in Adopting a Code of Conduct for Learners (General Notice 776 of 1998 published in Government Gazette No. 18900 dated 15 May 1998) the ultimate responsibility for learners' behaviour rests with their parents or guardians [care giver]. It is expected that parents will (a) support the School, and require learners to observe all school rules and regulations and accept responsibility for any misbehaviour on their part, and (b) take an active interest in their children's schoolwork and make it possible for the children to complete assigned homework and that Parents should attend meetings that the governing body convenes for them which also implies meetings with the Headmaster and any staff member.

In terms of Section 8(4) of SASA, no learner shall be exempted from the obligation to comply with the CODE OF CONDUCT and must be adhered to all its prescripts except where exempted in writing by the SGB.

- on the School premises before, during and after school hours;
- at all official School events, activities, and school-sponsored events both within and outside regular school hours and on and off the school premises; and
- in any situation, on or off school premises, online, where the learner is recognisable as a learner of the School in or out of school uniform, related dress and / or insignia.

This Code is used to govern conduct and discipline at the School. Therefore, each learner must obey the Code and school rules while on school grounds / premises; while being transported to or from School at school expense; and during school-sponsored events, field trips, athletic functions, and similar activities. During such times, all learners are subject to the immediate control and direction of educators, staff members, or bus drivers to whom such responsibility has been assigned by the Headmaster / SGB.

The Code also applies to any learners who commit felonies or delinquent acts which would be felonies if committed by an adult, off School premises or whose conduct off the school premises in or out of school hours / days may have a detrimental effect on the orderly operation of the School, or jeopardise the health, safety, or welfare of learners and staff members of the School. Furthermore, learners may be subject to School disciplinary sanctions when they commit acts away and apart from School that can be shown to pose a threat or danger to the safety of other learners, staff, educators, parents or school property, or will prevent the orderly delivery of the educational programme, or present a danger to the learner who committed the infraction.

This policy, though not all-inclusive, is intended to inform parents and learners about how our School operates and to establish the expected standards of the school learner community. Parents must note that his policy is also intended to familiarise parents and learners with most of the school rules and regulations so that we can avoid any future misunderstandings. It is, therefore, the responsibility of each learner and parent to read, understand, and abide by this Code of Learner Conduct, school rules and related policies of the School and any other applicable legislation.

School educators and members of the SMT / SBST are responsible for being aware of the specifics of the Code and applying them appropriately.

The School's disciplinary policies do not normally extend to off-school premises or non-school sponsored activities. However, the School does have a vested interest in the well-being of its learners and community. The School reserves the right to inform parents or law enforcement authorities if it has knowledge of illegal actions by a learner of the School. Should untoward behaviour be deemed to have occurred, the School may elect to suspend its normal disciplinary process and apply consequences up to and including suspension and disciplinary hearings. Such exceptions are at the discretion of the Headmaster of the School.

All of this contributes significantly to some of the underlying core values and ethos that this school represents.

With this in mind, Jeppe High School for Boys takes the issue of physical appearance of all learners and staff seriously that includes codes regulating hair and general appearance. The school leadership (SGB and Senior / Executive Management Team) has therefore, after consultation with a selected group of learners chosen by their fellow learners and the RCL, revised and agreed what it believes to be a reasonable and fair policy on Hair and Hair-styles that applies to a boys-only school. The school will not take responsibility for the theft or loss of any cellphone brought to school, no matter what the circumstances.

While the school acknowledges that cellphones have become an important and useful means of communication, it is also aware of the fact that their use and abuse, particularly by children, pose social, ethical and safety consequences. The school strongly discourages parents from allowing students to have cellphones in their possession while they are at school or in school uniform for the following reasons:

- Students, who carry or use cellphones (including head phones) in public, particularly when travelling to and from school, have become the targets of criminals who accost them and rob them of their cellphone and other possessions. These attacks occur most frequently when students are seen using their cellphones, particularly if they are expensive and / or "latest models" of sought-after brands.
- Theft of cellphones at school from bags and blazers is a persistent problem.
- Students are careless with their cellphones and leave them lying around
  or in blazers and bags which are left unattended. Lost and mislaid
  cellphones are frequently claimed to be stolen when this is not the case.
- Cellphones can be used to cheat in examinations and tests. For this
  reason, no cellphones are permitted in examination venues or in
  teaching venues when tests and examinations are written. This same
  policy applies to the external national examinations.
- Cellphones are increasingly multifunctional, offering an array of features which are designed to attract and entertain users. The ready availability of these features means that students with cellphones tend to access and use these features in the classroom, becoming distracted from their work. Students with low levels of self-discipline, poor concentration and / or a poor work ethic are more likely to become distracted by these features.
- Cellphones allow students unlimited access to salacious and ageinappropriate material.

- Cellphones may carry private and personal material, including photographs, video clips, voice messages and personal details which may become accessible by undesirable individuals and groups when cellphones are lost, borrowed or stolen.
- All of the above rules, apply to the use and wearing of Smart Watches, too.

Should a learner be found in possession of a cellphone during teaching or learning time, the cellphone will be confiscated for a period of one week in line with the School Code of Conduct. Confiscated cellphones will be handed in to the Headmasters Secretary for safe keeping. Repeat offenders will have their phone confiscated for a longer period of time on each occasion.

Learners are reminded of the existence of cellphone lockers in which cellphones and other valuables can be kept for safekeeping and which can be purchased for a deposit, which is refundable when the keys to the cellphone locker are returned

The school will not, in principle, under any circumstances engage parents in discussions resulting from complaints parents have received from their children by cellphone during the school day.

#### PART TWO

## 1. PROCEDURES IN THE CASE OF ALLEGED LEVEL 3, SCHEDULE ONE (LEVEL 4) AND TWO (LEVEL 5) OFFENCES

In cases where the Headmaster, or his appointed delegate, decides to constitute an Internal Disciplinary Hearing, the following procedures will apply:

The Internal Disciplinary Committee (IDC) hearing will be run by the school's Disciplinary Committee.

The School will observe the procedures laid down in the GDE regulations on serious misconduct and constitute a School Governing Body Hearing. They will be issued to the alleged offenders along with their notice of charge.

In cases where the Headmaster, or his appointed delegate, decides to constitute a School Governing Body hearing, the following procedures will apply.

# 2. PROCEDURE IN THE CASE OF POLICE INTERVENTION IN OFFENCES

- 2.1 The Headmaster will seek permission from a learner's parent or guardian should a representative of the SAPS or Metro Police wish to question a learner or detain a learner for questioning at a police station. This may be done telephonically.
- 2.2 In exceptional circumstances, at the discretion of the Headmaster, for example where a firearm might be in use or safety might be threatened, this provision can be waived, except that the Headmaster must notify the learner's parent or guardian as soon as possible after the incident and also inform the GDE and / or the SGB Chairman of the action taken.

DISCIPLINE MUST ALWAYS BE CONDUCTED IN A MANNER THAT TAKES INTO ACCOUNT THE CIRCUMSTANCES OF THE OFFENCE. THE AIM IS TO IDENTIFY THE WRONG AND SEEK THE BEST WAY TO AVOID RECURRENCES. A RESTORATIVE APPROACH IS THE FIRST OPTION. A HEAVY PUNITIVE HAND IS USUALLY NOT THE BEST APPROACH TO FINDING A LONG-TERM SOLUTION.

#### FIVE LEVELS OF OFFENCES

Misconduct is classified below. The disciplinary action, the agent who will effect it and the sanctions that may be imposed depend on the level of the offence

- Internal school procedures for Levels 1-3
